3. Terminal disclaimer with disclaimer fee

☒ Since this utility/plant application was filed on or after June 8, 1995, no terminal disclaimer is required.☐ A terminal disclaimer (and disclaimer fee (37 CFR 1.20(d)) of \$ _____ for a small entity or \$ _____ for other than a small entity) disclaiming the required period of time is enclosed herewith (see PTO/SB/63).

4. STATEMENT: The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 CFR 1.137(b) was unintentional. [NOTE: The United States Patent and Trademark Office may require additional information if there is a question as to whether either the abandonment or the delay in filing a petition under 37 CFR 1.137(b) was unintentional (MPEP 711.03(c), subsections (III)(C) and (D)).]

WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.

**PETITION UNDER 37 C.F.R. § 1.47(a) FOR ACCEPTANCE OF APPLICATION
WHERE INVENTOR REFUSES TO SIGN OR CANNOT BE REACHED**

Mail Stop Petitions
Commissioner for Patents
P.O. Box 1450
Alexandria, Virginia 22313-1450

Sir:

This submission is in response to the Decision on Petition mailed by the U.S. Patent and Trademark Office (USPTO) on June 28, 2006 (attached as Exhibit 1). The due date by which to respond to USPTO's Decision (including extensions of time under 37 CFR 1.136(a)) has passed; therefore, this Petition is filed concurrently with a Petition for Revival of an Application for Patent Abandoned Unintentionally Under 37 CFR 1.137(b).

The above-captioned patent application was filed with the USPTO on December 9, 2004, under 35 U.S.C. 371. On June 7, 2005, the undersigned received a Notification of Missing Requirements Under 35 U.S.C. 371 in the United States Designated/Elected Office (DO/EO/US), indicating an oath or declaration in compliance with 37 CFR 1.497(a) and (b) must be filed.

Despite diligent effort on behalf of the undersigned, Applicants have not been able to obtain a signature on the declaration for one of the joint inventors, Dr. Michelle Bridget Carrier.

In accordance with 37 CFR 1.47(a), Applicants provide proof of attempts at reaching Dr. Carrier for signature as well as background information relating to the subject application:

- (1) The joint inventor of the above-captioned application, Dr. Carrier, was an employee of Schlumberger Cambridge Research Limited at the time the invention was conceived. Dr. Carrier was involved with and cooperated in the preparation of the parent to this application. That parent application is PCT/GB04/02863 filed on July 2, 2004, which claims priority to GB0318840.6 filed on August 12, 2003.
- (2) After filing of the parent application, Dr. Carrier left the employment of Schlumberger Cambridge Research Limited (hereinafter "SCRL").
- (3) M-I L.L.C. and SCRL are parties to a Research Agreement, the result of which provides for the assignment of this application to M-I L.L.C. The Research Agreement Between M-I L.L.C. and Schlumberger Cambridge Research Limited (hereinafter, the "Research Agreement") is attached as Exhibit 2. A redacted copy of the Research Agreement is provided. In the event that the Office of Petitions requires a non-redacted copy, such copy will be provided by petitioner in accordance with the method described under 724.02 of the Manual of Patent Examining Procedure.
- (4) Leah Bardin was employed as a patent paralegal at M-I L.L.C. during the time the current application was filed with the USPTO. Attached as Exhibit 3 (with Exhibits A-E) is the Declaration of Leah Bardin in Support of Petition Under 37 CFR 1.47(a), detailing the events surrounding Applicants' attempts to contact Dr. Carrier for signature.
- (5) Julie Kurka is currently employed as a patent paralegal at M-I L.L.C. Attached as Exhibit 4 (with Exhibits A-C) is the Declaration of Julie Kurka in Support of Petition Under 37 CFR 1.47(a), detailing the most current attempts to reach Dr. Carrier, and including evidence of deposit with the U.S. Postal Service of correspondence to Dr. Carrier.

- (6) In each correspondence from Leah Bardin and Julie Kurka to Dr. Carrier, a telephone number and e-mail address were provided in the event Dr. Carrier had questions regarding the matter. Further, a DHL envelope and airbill were provided for Dr. Carrier's use in returning the declaration to M-I L.L.C. To date, no response has been received from Dr. Carrier and none of the letters sent to Dr. Carrier's last known address via DHL have been returned by DHL as undeliverable.

The end result of M-I L.L.C.'s attempts to contact Dr. Carrier, a joint inventor, was that Dr. Carrier could not be positively located to sign the declaration. Applicant thus respectfully requests acceptance of the application under 37 C.F.R. § 1.47(a).

Michelle Carrier's last known address is as follows (please see Exhibit C of Declaration of Leah Bardin):

Flat 155
Ratray Road
London
SW2 1BB
United Kingdom

Please deduct the fee required under 37 C.F.R. § 1.17(g) from M-I L.L.C.'s Deposit Account No. 13-3082, Order No. PA-00422US1. Should any additional fee deemed necessary for any reason relating to this document, the Commissioner is hereby authorized to deduct said fee from, or credit any overpayment to, M-I L.L.C. Deposit Account No. 13-3082, Order No. PA-00422US1. In order to facilitate the resolution of any issues or questions presented by this paper, the Examiner should directly contact the undersigned by phone to further the discussion.

Respectfully submitted,

DECISION ON PETITION
UNDER 37 CFR 1.47(a)

DOCKETED

Int: UB DT _____

Action: Petition Date: 8-28-06
(8-1-06)

This decision is issued in response to applicant's "Petition under Rule 37 CFR 1.47(a) for Acceptance of Application Where Joint Inventor Cannot Be Located to Join in Application for Patent" filed 12 April 2006 to accept the application without the signature of joint inventor, Michelle Bridget Carrier.

BACKGROUND

On 22 July 2004, applicant filed international application PCT/GB04/02863 which claimed priority to a previous application filed 12 August 2003. Pursuant to 37 CFR 1.495, the deadline for payment of the basic national fee in the United States was to expire 30 months from the priority date, 12 February 2006.

On 09 December 2004, applicant filed a transmittal letter for entry into the national stage in the United States, which was accompanied by the requisite basic national fee as required by 35 U.S.C. 371(c)(1); a copy of the international application; a preliminary amendment; and an Information Disclosure Statement.

On 07 June 2005, the United States Designated/Elected Office mailed a Notification of Missing Requirements under 35 U.S.C. 371 (Form PCT/DO/EO/905) indicating that an oath or declaration in compliance with 37 CFR 1.497(a) and (b) must be filed.

On 12 April 2006, applicant filed the present petition under 37 CFR 1.47(a) to accept the application without the signature of joint inventor Michelle Bridget Carrier.

DISCUSSION

A petition under 37 CFR 1.47(a) must be accompanied by (1) the fee under 37 CFR 1.17(g), (2) factual proof that the missing joint inventor refuses to execute the application or cannot be reached after diligent effort, (3) a statement of the last known address of the missing inventor, and (4) an oath or declaration by each 37 CFR 1.47(a) applicant on his or her own behalf and on behalf of the non-signing joint inventor. Applicant has satisfied items (1), (3) and (4).

Applicant states in the present petition that Michelle Bridget Carrier is unavailable to execute the application, however, it appears by the evidence presented that Michelle Bridget Carrier has refused to execute the application. Section 409.03(d) of the MPEP, **Proof of Unavailability or Refusal**, states, in part:

Where a refusal of the inventor to sign the application papers is alleged, the circumstances of the presentation of the application papers and of the refusal must be specified in a statement of facts by the person who presented the inventor with the application papers and/or to whom the refusal was made. Statements by a party not present when an oral refusal is made will not be accepted.

Proof that a bona fide attempt was made to present a copy of the application papers (specification, including claims, drawings, and oath or declaration) to the nonsigning inventor for signature, but the inventor refused to accept delivery of the papers or expressly stated that the application papers should not be sent, may be sufficient. When there is an express oral refusal, that fact along with the time and place of the refusal must be stated in the statement of facts. When there is an express written refusal, a copy of the document evidencing that refusal must be made part of the statement of facts. The document may be redacted to remove material not related to the inventor's reasons for refusal.

When it is concluded by the 37 CFR 1.47 applicant that a nonsigning inventor's conduct constitutes a refusal, all facts upon which that conclusion is based should be stated in the statement of facts in support of the petition or directly in the petition. If there is documentary evidence to support facts alleged in the petition or in any statement of facts, such evidence should be submitted. Whenever a nonsigning inventor gives a reason for refusing to sign the application oath or declaration, that reason should be stated in the petition.

Petitioner provided sufficient information that a bona fide attempt was made to present a copy of the application papers to the nonsigning inventor, however, the petition and accompanying papers does not provide first hand knowledge that the nonsigning inventor has refused to execute the declaration and application. The statements made with regards to the efforts to reach Michelle Bridget Carrier constitutes secondhand knowledge,

in that the actions to which petitioner is averring to were conducted by Leah S. Bardin. Lastly, did petitioner or Ms. Bardin receive confirmation via DHL delivery certificate that Michelle Bridget Carrier received the application papers?

As stated above, where a refusal of the inventor to sign the application papers is alleged, a statement of facts is needed from a person having first hand knowledge of the facts that a complete copy of the application papers (specification, claims, and drawings) were sent to Michelle Bridget Carrier, and when such papers were sent. In addition, copies of documentary evidence such as a certified mail return receipt, cover letter of instruction, telegrams, etc., should be supplied with the declaration.

In light of the above, it is not possible to grant applicant's petition at this time.

CONCLUSION

For the reasons stated above, applicant's petition under 37 CFR 1.47(a) is **DISMISSED**.

Any reconsideration on the merits of this petition must be filed within **TWO (2) MONTHS** from the mail date of this decision. Any reconsideration request should include a cover letter entitled "Renewed Petition Under 37 CFR 1.47(a). Extensions of time may be obtained under 37 CFR 1.136(a).

Any further correspondence with respect to this matter should be directed to Mail Stop PCT, Commissioner for Patents, Office of PCT Legal Administration, P.O. Box 1450, Alexandria, Virginia 22313-1450, with the contents of the letter marked to the attention of the Office of PCT Legal Administration.

RESEARCH AGREEMENT

Between

MI LLC

and

SCHLUMBERGER CAMBRIDGE RESEARCH LIMITED

PL/HW

THIS AGREEMENT is made effective as of the first day of January 2000.

Between:

- (1) MI LLC, having an office at 5950 North Course Drive (77072), P.O. Box 721110,
Houston, Texas 77272 U.S.A

on behalf of itself and its Affiliates ("MI")

and

- (2) Schlumberger Cambridge Research Limited, of High Cross, Madingley Road,
Cambridge CB3 0EL England, on behalf of itself and its Affiliates ("SCR").

WHEREAS:

MI is a leading supplier of drilling fluids related compositions, equipment and services;

SCR is a Research Laboratory of the Schlumberger Oilfield Services Group, comprised of SCR Affiliates, having scientific expertise in broad areas of oilfield services related technologies including, as a part thereof, expertise in drilling fluid chemistry and processes;

MI has acquired and merged the drilling fluid related business and engineering groups of Schlumberger Oilfield Service Group, and desires to take the place of those groups as sponsor and beneficiary of SCR's research work; and

SCR desires to continue research work in the field of drilling fluid chemistry and processes on behalf of MI

MI desires that SCR continue its research work in the field of drilling fluid chemistry and processes on behalf of MI and SCR desires to continue such a research work.

IT IS HEREBY AGREED THAT:

1 DEFINITIONS

In this Agreement:

- 1.1 "Confidential Information" shall mean any information disclosed by one party to the other and/or its affiliates, including any software in either source or object code, computer program, algorithms, technical, proprietary, engineering, operational information, specimen, processes, apparatus, equipment, formulae, proprietary knowledge, know-how, data and specifications whether patented or not, but excluding information that:
- (a) is in the public domain at the time of disclosure; or
 - (b) enters the public domain after disclosure to a Party, and not as the result of breach by such Party under this Agreement; or

- (c) is in the possession of a recipient Party prior to disclosure to it, and was not then subject to an obligation of confidence to the disclosing Party; or
- (d) is disclosed to a Party by a third person without any breach of an obligation of confidence; or
- (e) is independently created by the recipient Party as a result of work carried out by an employee to whom no disclosure of the relevant Confidential Information has been made.

Any information which is specific and has been disclosed in confidence shall not be deemed to come within any of the foregoing exceptions merely because such specific information is embraced by general disclosures in the public domain; nor shall a combination of two or more features included within such Confidential Information be deemed to be within any of such foregoing exceptions merely because one or more of such features individually come within any of such exceptions.

- 1.2 "Intellectual Property" means patents, registered and unregistered designs, registered and unregistered trade marks, design rights, topography and mask rights, copyrights (including the copyright on software in any code), know-how and trade secrets, rights in inventions, discoveries, improvements as well as applications for any such rights and any rights of a similar or equivalent nature which arise in any jurisdiction.
- 1.3 "Background Intellectual Property" means any Intellectual Property owned by or at the free disposal of the parties and not generated in the performance of the Research Project.
- 1.4 "Results" means all results and information generated by SCR pursuant to and during the term of this Agreement.
- 1.5 "Research Projects" means scientific projects undertaken by SCR and either relating directly to drilling fluid technology or having a beneficial impact on Drilling Fluid Technology.
- 1.6 "Drilling Fluid Technology" means compositions, additives, formulations, processes and impact of fluids circulated through the drillstring and the annulus of the wellbore during drilling.
- 1.7 "Affiliate" means any business entity that is owned or controlled by a Party, that owns or controls a Party, or that is owned or controlled by a business entity owning or controlling a Party. Direct or indirect ownership of more than fifty percent of the voting stock ordinarily entitled to vote in the election of directors of a business entity or, if no such stock is issued, of more than fifty percent of the ownership interest in the business entity, shall constitute ownership thereof.

5 OWNERSHIP AND EXPLOITATION OF INTELLECTUAL PROPERTY

- 5.1 For the avoidance of doubt all Background Intellectual Property used in connection with the Research Projects shall remain the property of the party introducing the same.
- 5.2 Due to the nature of the research work performed by SCR which encompasses drilling fluids technology and other oilfield services technologies as well as integrated approaches combining drilling fluids components with other components, it is the understanding of the parties that the Results of the Research Project may not be easily identifiable as purely drilling fluid technology, and may not be readily assignable to one of the parties or its affiliated companies. The parties therefore

agree that, in the first instance and prior to any other agreement between the parties, all Results and all rights therein shall be owned by SCR and its affiliated companies.

- 5.3 In case certain Results are solely applicable to Drilling Fluid Technology, MI shall have the right to request a transfer of ownership of such Results and all rights thereof from SCR or its affiliated companies, as the case may be, to MI. Upon such request, SCR or its affiliated companies shall transfer and assign the ownership to MI without undue delay, at the cost of MI. This transfer shall be irrevocable, royalty-free, worldwide and perpetual, and SCR and its Affiliates shall retain a non-exclusive, royalty-free, worldwide and perpetual license to use such Results in their normal course of business, without the right to transfer said rights to a third party.

Dear Dr. Carrier:

We write you regarding a patent application in which you are listed as an inventor along with Gerald Henry Meeten, that was filed when you were employed with Schlumberger (a copy of your employment agreement is enclosed). The parent application was filed in Great Britain on August 12, 2003 and a year later the PCT application was filed on July 2, 2004. We have now entered the U.S. national stage of the PCT application. Enclosed please find a copy of the patent application as filed along with an Inventors Declaration and a copy of the Preliminary Amendment filed as well. [Would you] please review these documents and sign and date the enclosed Declaration? The documents should be returned to us in the enclosed DHL envelope at your earliest convenience.

Should you have any questions regarding this matter, please do not hesitate to contact me or Kimberly D. Ballew at 713-561-1454 or at kballew@miswaco.com. Thank you for your assistance with this matter.

Kind regards,

Leah S. Bardin

Re: U.S. Patent Application No. 10/517,332 Corresponding to International Application No. PCT/GB04/02863 entitled "Electrical Treatment for Oil-Based Drilling or Completion Fluids"
Our Ref: PA-00422US1

Dear Dr. Carrier:

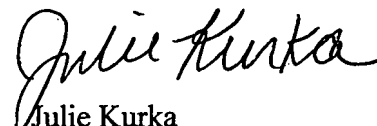

This letter is following up on our previous correspondence to you relating to the above-referenced U.S. patent application.

This patent application was filed when you were employed at Schlumberger, listing you as a co-inventor along with Gerald Henry Meeten. The U.S. Patent and Trademark Office requires a signature from each inventor on an Inventors' Declaration document. This document declares that you have read the corresponding patent application and that you are correctly listed as an inventor for the application.

Enclosed please find an additional copy of the patent application as filed, along with the Inventors' Declaration mentioned above. **Please review these documents and sign and date the enclosed Declaration where indicated below your name. Then please return the signed Declaration to me in the enclosed DHL envelope as soon as possible.**

Should you have any questions, please contact me or Kimberly D. Ballew at (713) 561-1454 or at kballew@miswaco.com. Thank you in advance for your prompt response to this matter.

Very truly yours,

Julie Kurka
